#### **Ethnographic information and anthropological interpretations i**

ETHNOGRAPHIC INFORMATION AND ANTHROPOLOGICAL INTERPRETATION 217 This blowtorch is different in some respects from the normal debate and discourse within academia about such matters Firstly, of course, it can have immediate real life consequences for the people concerned

Secondly, it tends to come through people who,

### **Ethnography: An Introduction to Definition and Method**

Ethnography: An Introduction to Definition and Method 3 perceived that there was some value in doing ethnography to add to the sum of knowledge, ethnography came under criticism for being an academic exercise with little constructive value (Atkinson & Hammersley, 1994) There is a shift to a critical ethnography (Denzin and

### **ETHNOGRAPHY AND PARTICIPANT OBSERVATION**

Interpretation is equally important because the ethnographer must determine the significance of what he or she observes Ethnographic research typically employs three kinds of data collection methods: observation, interviews and documents, often employing all three methods in a single study These in turn produce three kinds of data: quotations, descriptions and excerpts of documents The aim

### **AN INTRODUCTION TO FOCUSED ETHNOGRAPHY**

- Narrative description as the product of analysis that includes an unequivocal acknowledgement of interpretation of the significance and purpose of human behaviour; and,
- No quantification of data

Key Characteristics of All Ethnographies (Atkinson & Hammersley, 1998, p 110)

### **Chapter 5 Analysis and interpretation of the qualitative ...**

Chapter 5 Analysis and interpretation of the qualitative research 157 The researcher first conducted interviews with the school principals (Group 1), then the Grade 12 teachers (Group 2), then the Grade 12 learners (Group 3), and finally the parents of Grade 12 learners (Group 4) After completion of the ethnographic interviews of one

### **CHAPTER 6: DATA ANALYSIS AND INTERPRETATION 6.1. ...**

CHAPTER 6: DATA ANALYSIS AND INTERPRETATION 357 The results of qualitative data analysis guide subsequent data collection, and analysis is thus a less-distinct final stage of the research process than quantitative analysis, where data analysis does not begin until all data have been collected and condensed into numbers;

### **Descriptive and interpretive approaches to qualitative ...**

Descriptive and interpretive approaches to qualitative research Robert Elliott and Ladislav Timulak Qualitative research methods today are a diverse set, encompassing approaches such as empirical phenomenology, grounded theory, ethnography, protocol analysis and dis-course analysis By one common definition (Polkinghorne, 1983), all these methods
